ABOUT THE CONFERENCE

RTACR 2023 aims to feature distinguished keynote speakers from academia and industry worldwide, as well as present accepted peer-reviewed manuscripts.

The primary goal of this conference is to create a platform for academic research communities, industry experts, scientists, and participants to exchange their ideas and bridge the gap between industry and academia.

The conference aims to gain insights into the future and accomplish the following objectives:

- To explore the application of computational approaches in evolution and the challenges that arise when implementing them in real-time.
- To discover diverse cutting-edge intelligent technologies and advanced problem-solving approaches of the next generation.
- Discussion on current research trends in the relevant discipline and so fosters a culture of research.
- Showcase the latest research trends in order to enhance the collaboration between industry and academia.

IMPORTANT DATES

- **22th December, 2023** - Last Date for Paper Submission
- **24th December, 2023** – Acceptance Notification
- **26th December, 2023** - Registration
- **28th December, 2023** - Day of the Event

INTRODUCTION

RTACR 2023 focuses on cutting-edge research in Machine Learning, IoT, Networking, Image Processing, and Computer Vision. The conference fosters collaboration between academia and industry, discussing real-time implementation challenges, promoting research culture, and presenting emerging trends. It offers a global platform for researchers to exchange ideas and showcase their work

CALL FOR PAPERS

Prospective authors are invited to submit original work of research and current development in the area related to the theme of the conference. The submitted work must be unpublished and not submitted/under review in any conference/journal.

STRUCTURE & THEME OF EVENT

The event will be organized in Hybrid Mode. The keynote addresses will be of around 40-45 minutes given by the experts in the related field. Paper Presentation will be organized to showcase the innovative work done by the researchers in following mention field (but not limited to) :

CONFERENCE THEME

- Computational Techniques
- Machine Learning for Informatics
- Intelligent Data Analytics and Computing
- Deep Learning and Its Applications
- Informatics and Applications
- Soft Computing Applications
- Image Processing & Machine Learning Data Mining
- Optimization Methods
- Artificial Intelligence and Applications
- Data Science Challenges and Applications
- Machine Intelligence and IoT
- Machine Learning for Information
- Reveal Human-Machine Interaction

COMMITTEE

TECHNICAL COMMITTEE

Dr. Yashu Shanker, Assoc. Prof., DTC, Greater Noida (Chair)
Mr. Aniket Singh, Asst. Prof., DTC, Greater Noida

PUBLICATION COMMITTEE

Dr. Ankit Gambhir, Assoc. Prof., DTC, Greater Noida
